MageINIC

Quick View

FEATURES

- Preview product information directly from a category page.
- Effortlessly add products to your cart using the quick view window.
- Personalize the quick view link.
- Enhance the product browsing experience.

Ultimate Guide for Magento 2 Quick View

Introducing Magento 2 Quick View extension is a versatile solution that offers more than just the ability to preview product details. It empowers customers to swiftly examine product information and conveniently add desired items to their carts without navigating away from the current page. This seamless and user-centric approach significantly saves time and contributes to an enhanced online shopping experience, ultimately boosting conversion rates for e-commerce stores.

- Quickly view product details in a pop-up, without page load : Experience a condensed product page showcasing essential attributes name, SKU, prices, description, and more, providing shoppers with comprehensive information in a single glance.
- The "Add to cart" button eliminates the need for two cumbersome actions : opening the product page and returning to the product list. These necessary steps often drain users while browsing. With "Quick view," this challenge is resolved as it permits instant cart additions directly from the pop-up. This enhancement accelerates the shopping process, significantly improving customer experiences.
- Personalize the text on the Quick View link : Enjoy adaptable backend settings, granting you the freedom to modify the link text.

How to install the extension

1. Install via composer (recommend)

- Enable maintenance mode **php bin/magento maintenance:enable**
- Run the command **composer require mageinic/quick-view**
- Run the command **php bin/magento module:enable MageINIC_Core MageINIC_QuickView**
- Run the command **php bin/magento setup:upgrade** to install the extension
- Run the command **php bin/magento cache:clean** to clean the cache
- Disable maintenance mode **php bin/magento maintenance:disable**

MageINIC

- Check the store environment if everything is working properly. If, at any point, the store displays an error, check the Magento logger for more details.

2. Upload via ZIP/Archive

- Back up your store's database and web directory
- Download the extension zip file and extract the zip file
- Transfer the **MageINIC** folder to the Magento 2 **app/code/** directory on the server
- Enable maintenance mode **php bin/magento maintenance:enable**
- Run the command **php bin/magento module:enable MageINIC_Core MageINIC_QuickView**
- Run the command **php bin/magento setup:upgrade** to install the extension
- Run the command **php bin/magento cache:clean** to clean the cache
- Disable maintenance mode **php bin/magento maintenance:disable**
- Check the store environment if everything is working properly. If, at any point, the store displays an error, check the Magento logger for more details.

SKU	24-MB06	24-MB02
Description	The Rival Field Messenger packs all your campus, studio or trail essentials inside a unique design of soft, textured leather - with loads of character to spare. Two exterior pockets keep all your smaller items handy, and the roomy interior offers even more space. • Leather construction. • Adjustable fabric carry strap. • Dimensions: 18" x 10" x 4".	With the Fusion Backpack strapped on, every trek is an adventure - even a bus ride to work. That's partly because two large zippered compartments store everything you need, while a front zippered pocket and side mesh pouches are perfect for stashing those little extras, in case you change your mind and take the day off. • Durable nylon construction. • 2 main zippered compartments. • 1 exterior zippered pocket. • Mesh side pouches. • Padded, adjustable straps. • Top carry handle. • Dimensions: 18" x 10" x 6".
